Email: office@skeltonprimaryschool.co.uk

Dear Families,  
Welcome to this week's news.

What a fabulous week we have had!

All of our children have performed and shared their talents on stage and in concerts to packed houses. THANK YOU for your support.

## CHRISTMAS CARD COMPETITION

We have two full trees of cards now! If you would like to enter, please bring your entry to Ms Walker by Thursday Dec 19th. Every entry receives a prize and there will be two grand prizes!

This week's House Champions

### Attendance

Our Target - 97%+

Well done to Red 3 who achieved 100% this week.

Whole school attendance - 93.4%

# 12 Smartphone Online Safety Tips

## FOR CHILDREN WITH NEW DEVICES

The Christmas season has finally arrived and soon many of you will be opening your presents in the hope that Santa has listened to your request for the latest mobile phone or smart device. Owning a mobile phone can be fun, but it's important to use it safely and responsibly. By following our safety tips below, you can make sure that you set up your phone securely, keep your personal information private and enjoy using your phone in the healthiest way possible.

1

### ALWAYS SECURE YOUR PHONE WITH A PASSWORD

This will help to keep your private information safe and won't allow others to access your phone without your permission. Make sure your password is memorable and personal to you but something which other people can't guess, and always share it with your parents just in case you forget it.

2

### DISABLE LOCATION SETTINGS

This can usually be done from the device's privacy control settings. Disabling location settings means that your phone can't be tracked by others and strangers can't tell where you are when you're using it. It also helps to save battery.

3

### ALWAYS USE A SECURE WIFI NETWORK

When you use your WiFi at home usually it is a secure network that only you and your family know the password to. Public networks, like those in coffee shops, can be accessed by anyone which means that people could potentially hack into your device and access your personal information without you realising.

4

### ONLY PAIR WITH BLUETOOTH DEVICES YOU KNOW

A Bluetooth connection with another device means that you can send and receive data wirelessly. For example, you could listen to music wirelessly or receive pictures and videos from your friends. However, pairing your phone with a device you don't know means that you could be sharing personal information with a stranger or could leave your device open to receiving viruses.

5

### ONLY USE APPS WHICH YOU ARE OLD ENOUGH TO USE

Before downloading any new apps, always check the age-rating of the app. If you need help, ask your parent or carer to make sure that the app is safe for you to use and never download anything which you are too young for as it may contain things that aren't safe for you to see.

6

### BEWARE OF BECOMING ADDICTED TO YOUR PHONE

Your phone can be fun to use and it's easy to become too attached, whether it's keeping in touch with friends, discovering new features or downloading the latest apps. Remember it's always good to talk in person, go out and have fun and get regular exercise. This will keep you fit and healthy and make you appreciate there's more to life than just your mobile phone.

12

### DON'T SHARE YOUR NUMBER OR YOUR DEVICE WITH PEOPLE YOU DON'T KNOW.

Never feel pressured into sharing your phone number with people you don't know and don't lend your phone to strangers or keep it where others could get hold of it. Look after your device and always keep it hidden from sight to avoid it being stolen or broken into.

7

### LIMIT YOUR SCREEN TIME

Using your phone for too long, particularly in the evenings, can make you feel tired at school, affect your concentration and make you lose interest in other things in life. Only use your phone at certain times of the day and don't use it close to bedtime. You can set a 'screen time limit' via the settings on your phone. This will help you stay fit and healthy and means that you will still be able to focus and perform well at school.

8

### THINK OF OTHERS WHEN TAKING PHOTOS

Don't take embarrassing photos of other people on your phone. If other people get access to the photo and share it with more people, it could make that person really upset and treated as a form of bullying. Always be mindful of the photos you take using your camera and who you share them with.

9

### MAKE SURE YOUR PARENTS SET UP 'PARENTAL CONTROLS'

This means that you will be able to use your phone safely and securely and won't accidentally do things you shouldn't do. The best time to do this is when you get a new phone or device so that you're protected from the very beginning.

10

### ALWAYS TALK TO YOUR PARENTS IF YOU DON'T FEEL SAFE

Sometimes, even though your phone is really secure, you might see something you don't like, or someone might contact you who you don't know. If this happens, always tell your trusted adult like your parents, carers, other adult family members or a teacher, all of whom will be able to support you and advise you on what you should do next.

11

### DON'T TEXT AND WALK

This might seem like a strange thing to say but it can be dangerous to stare at your mobile phone whilst walking outside alongside busy roads or bicycle paths. In some cases, children have been knocked over by cars or cyclists because they haven't been aware of their surroundings whilst texting or playing games on their mobile devices.
