A Free Book for Children Pub April 2020

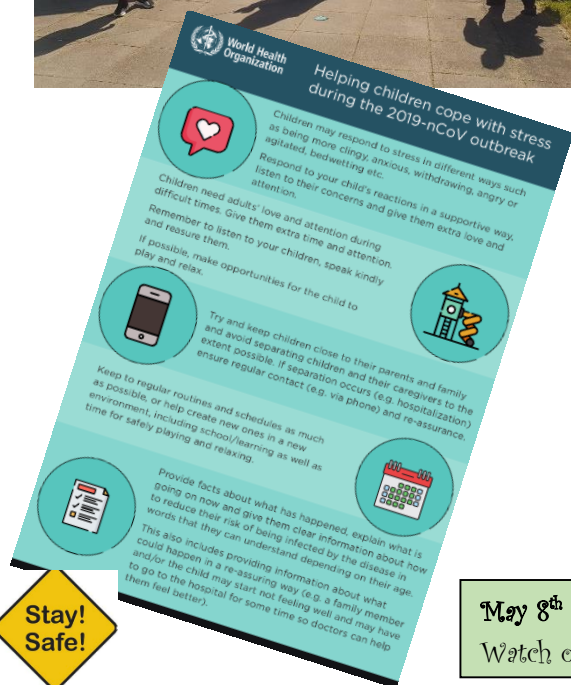

https://nosycrowcoronavirus.s3-eu-west-1.amazonaws.com/Coronavirus_ABookForChildren.pdf

Axel Scheffler has illustrated a digital book for primary school age children, free for anyone to read on screen or print out, about the coronavirus and the measures taken to control it.

The book answers key questions in simple language appropriate for primary aged children:

- What is the coronavirus?
- How do you catch the coronavirus?
- What happens if you catch the coronavirus?
- Why are people worried about catching the coronavirus?
- Is there a cure for the coronavirus?
- Why are some places we normally go to closed?
- What can I do to help?
- What's going to happen next?

We want to make sure that this book is accessible to every child and family and so the book is offered totally free of charge to anyone who wants to read it. However, we have suggested, at the back of the book, that families might make a donation to help our health service if they find the book useful: <https://www.nhscharitiestogether.co.uk/>.

Stay!
Safe!
