Rights Respecting Schools

- Article of the week

Article 13

You have the right to find out things and say what you think, through making art, speaking and writing, unless it breaks the rights of others.

What does this mean? UNICEF's Outright campaign supports young people learn about issues and how to use their freedom of expression to make a difference. This year the campaign explores climate change. It provides an opportunity for the children to learn about climate change and how it affects children's rights in both the UK and around the world. The children can then speak out about issues that are important to them.
